EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harris A. Pitlick, Esq. on 25 October 2007.

The application has been amended as follows: Claims 14-17 have been cancelled. Applicants were notified that these claims are drawn to a distinct invention from claims 1-13, 18 and 19 insofar as the issues of patentability of functional requirements for the recording medium are entirely different from those specifying components and their characteristics. Claims 1-13, 18 and 19 were elected for further prosecution and claims 14-17, to the non-elected invention, have been cancelled. Applicants authorized cancellation of these claims while reserving all rights to file divisional application(s) to the subject matter therein.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The closest prior art as cited teaches a pigment-dispersed aqueous recording liquid as required by applicants' claims, but does not teach the combination of particle size with the specific urethane resin. The choice of the combined requirements is, therefore, neither taught nor rendered prima facie obvious by the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.
